What is a Follower Island?

An island that learns by taking
example and adopting
decarbonization practices planned
and realized
by the group of 30 for 2030
islands

How do you become a Follower Island?

- A call will be launched in **September 2024** inviting islands to submit their applications.
- The submission of applications with the participation of **more than one stakeholder** are encouraged - Applications from an island local authority on its own will be accepted.
- The applicants will be asked to:
 - select **learning topics** on which they will join capacity building activities,
 - present their energy **plans and visions** to be assessed and enhanced,
 - select one **project** of their interest to receive peer-to-peer coaching

Activities for the Follower Islands

Follower Islands activities will be based on the preferences provided during the application phase and will last for a **period of 6 months**.

M1 – M2 | Capacity building based on selected learning topics

M2 – M3 | Energy planning assessment based on provided information

M4 – M6 | Peer-to-peer project coaching based on selected projects

Accessibility to knowledge sharing platform.

1. Capacity building

1. **Setting-the-ground training workshop** on island energy systems.

2. **Capacity building activities** on the selected learning topics:

- Online workshops
- Learn from the from the 30 for 2030.
- Follower-to-follower island knowledge sharing
- Interactive discussion on the learning topic

2. Energy planning and vision making

- Assessment of the Follower Islands **energy plans, projects in operation and/or planned.**
- Secretariat team will provide **consultation for potential required modifications.**

3. Peer-to-peer project coaching
