

BREAKOUT SESSION #1

Energy efficiency

European
Commission

#CE4EUislands

Clean energy for EU islands Forum 2025

Energy Efficiency Session

Clean energy for EU islands
www.euislands.eu | info@euislands.eu

Agenda

11:00 – 11:10 *Introduction: What are the obstacles to energy efficiency?*

11:10 – 11:25

Public building decarbonization roadmaps on Korcula and Pašman

- **Ivica Martinović**, Korcula Municipality
- **Bruna Vojvodić**, Tkon Municipality - Pašman

11:2 – 11:40

Energy efficiency measures for traditional buildings in Ireland

Stephanie Brennan, Comharchumann Fuinnimh Oileáin Árann / Aran Islands Energy Co-Operative

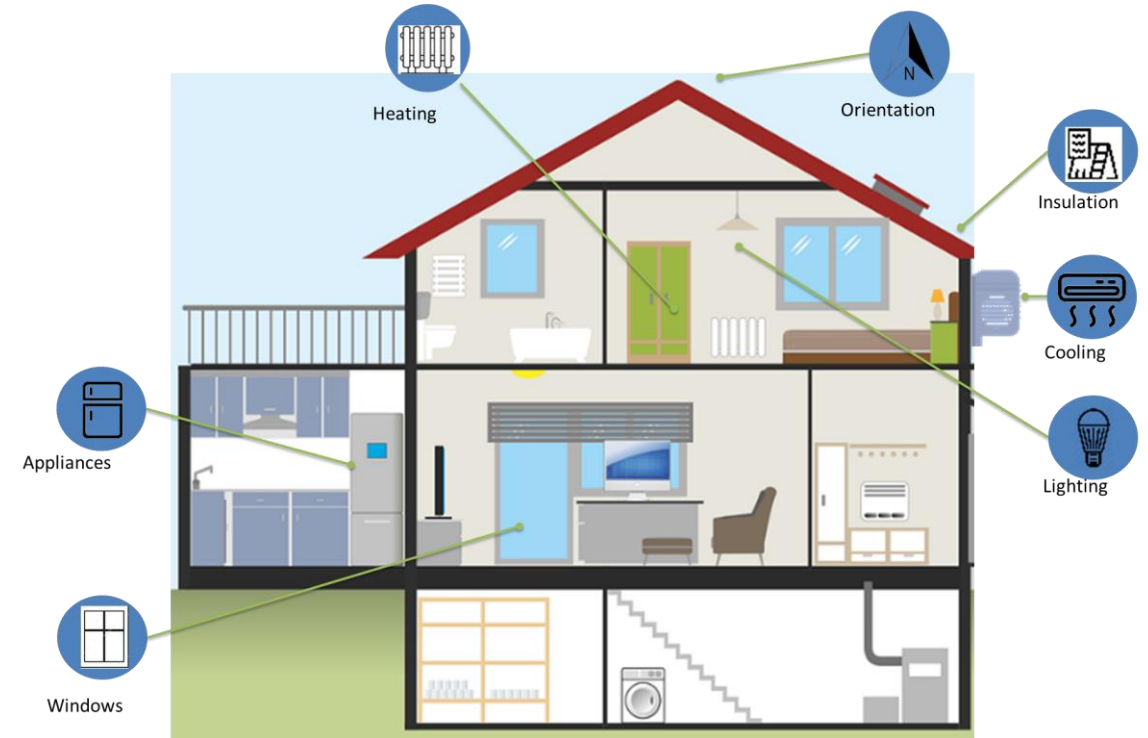

Report: [Energy efficiency in residential stone buildings](#)

11:40 – 12:45

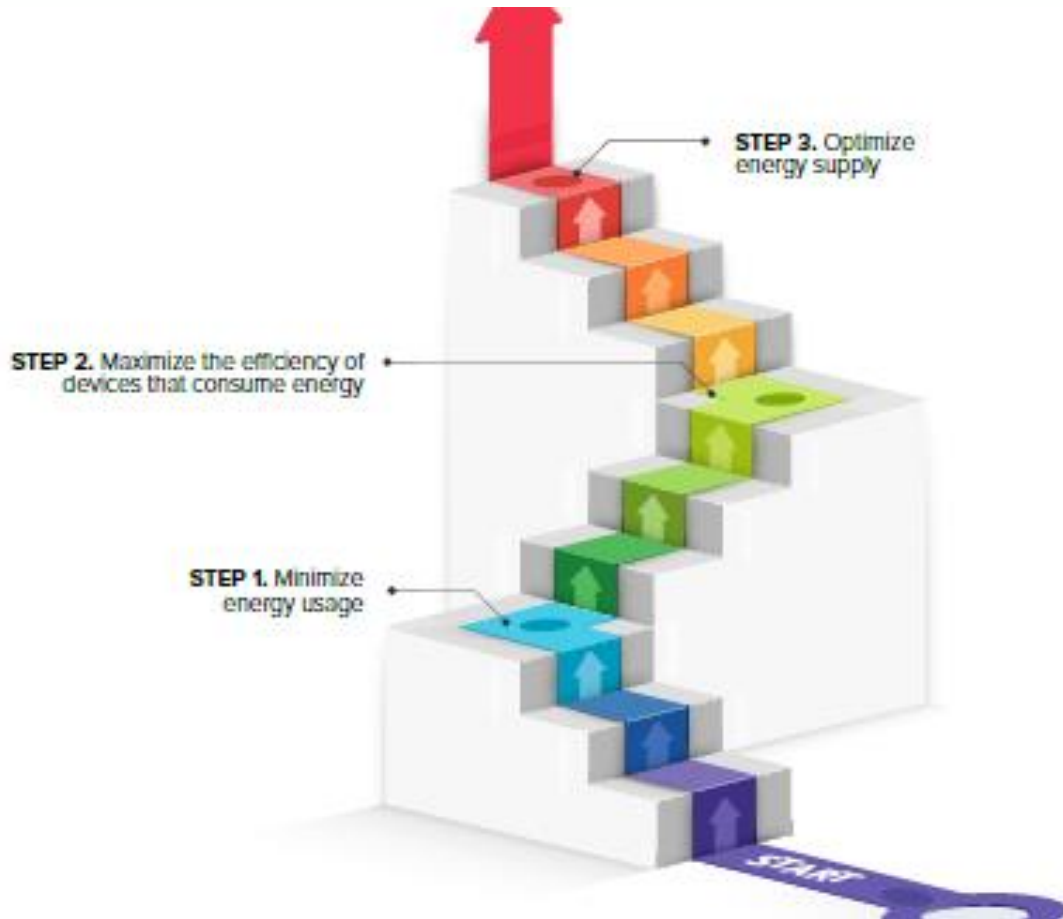

World café: Interactive solutions

12:45 – 13:00

Presentation of World café results and closing remarks

How to reduce energy consumption of buildings in islands?

Using less energy to achieve the **same or better performance**, ultimately reducing energy consumption and costs while minimizing environmental impact

From which "island,country" are you coming from?

Wordcloud Poll 22 responses 21 participants

 What is the main challenge that you are experiencing to implement energy efficiency projects in your island?
