#CleanEnergyIslands

What Marketplace is all about?

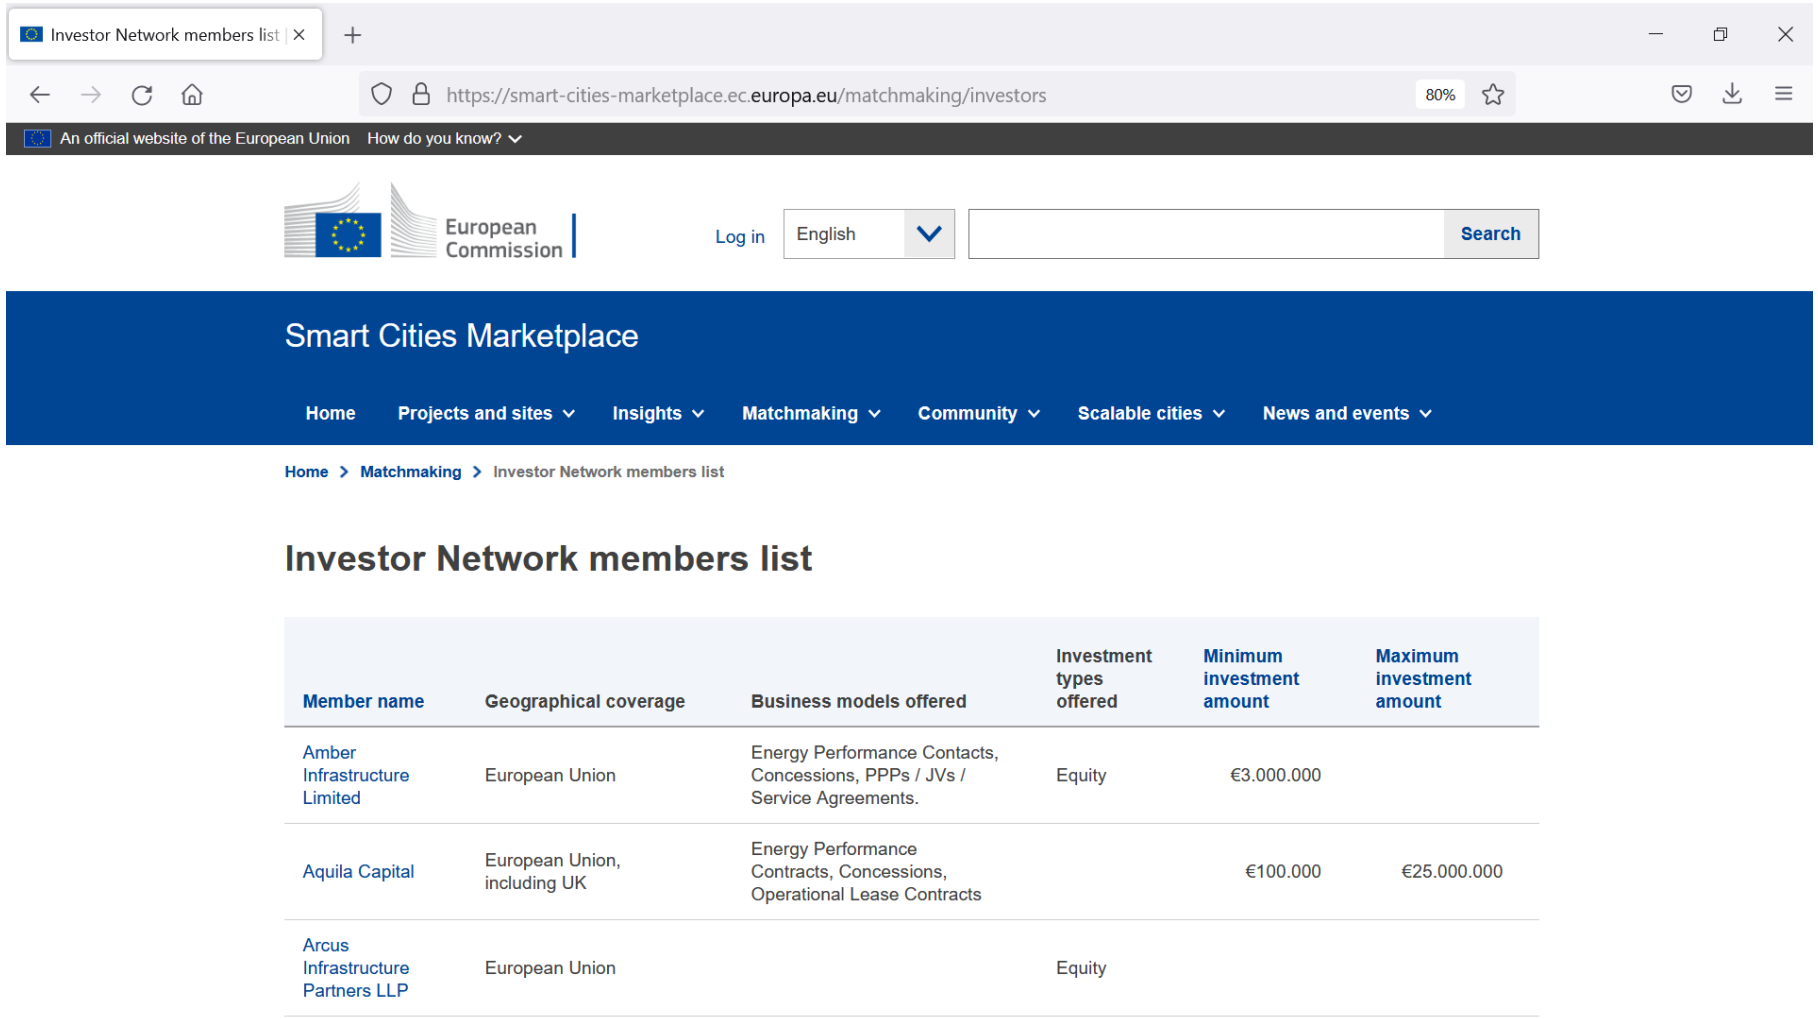
The **Islands Marketplace** bridge **island communities** with **investors** and **technology providers**.

https://clean-energy-islands.ec.europa.eu/islands-marketplace

Why this is for you?

With the Marketplace, the secretariat team will put you in **contact** with **financial institutions** from our Investor Network and technology providers to discuss the technology and financing of the project.

Investor network



Member name	Geographical coverage	Business models offered	Investment types offered	Minimum investment amount	Maximum investment amount
Amber Infrastructure Limited	European Union	Energy Performance Contacts, Concessions, PPPs / JVs / Service Agreements.	Equity	€3.000.000	
Aquila Capital	European Union, including UK	Energy Performance Contracts, Concessions, Operational Lease Contracts		€100.000	€25.000.000
Arcus Infrastructure Partners LLP	European Union		Equity		

https://smart-cities-marketplace.ec.europa.eu/matchmaking/investors

What if your project is not ready yet?

We will provide you **guidance** on how to improve your project towards **bankability**.

Islands Marketplace

Project Maturity Level

PML 1	• Potential project identified
PML 2	• Project potential quantified
PML 3	• Project investment estimated and suitable business models identified
PML 4	• Technical project and business case developed
PML 5	• Investment-Ready
PML 6	• Investment offer or tendering requirements created

What if you are looking manly for grants?

We will provide you support to find the right **funding opportunities** for your project.

Islands Marketplace

Source of finance

The Clean energy for EU islands secretariat team can both support by finding private investors for your project or by providing guidance on available funding (grants) opportunities.

* **Are you mainly interested in grants to finance your project?**

- (•) Yes
- ( ) No

If you are only interested in grants, the Clean energy for EU islands Secretariat has the Financing Corner available for you. On this page, you can dive into a number of resources to learn about financing clean energy projects of different forms and sizes on islands.

Also we can provide you guidance on the most suitable funding opportunities for your project and on the application procedure. For that, please fill the information about your project and contact jorge.almeida@euislands.eu or leandro.vaz@euislands.eu.

* **Are you mainly interested in grants to finance your project?**
  - ○ Yes
  - ◉ No

In order to be more successful on the match of your project with private investors, please provide as much information as possible. If you do not have, our team will contact you in order to support you on the development of the missing data.

Project description

Name of the project

Picture/image
Please provide a quality image of your project, as well as the image credits

Name of the island

Type of the project
- ○ **Green field**
  Development of a new infrastructure on a piece of land that has never been developed
- ○ **Brown field**
  Development of infrastructure on a property that was previously developed (usually requiring additional works)

Description of your project

Please upload any relevant documentation of your project

Expected timeline

Project sector(s)

Renewable energy
- ☐ Photovoltaics
- ☐ Wind energy
- ☐ Biomass
- ☐ Energy storage
- ☐ Co-generation (CHP)
- ☐ Geothermal
- ☐ Thermal collectors
- ☐ Geothermal energy
- ☐ Waste heat recovery
- ☐ Wave energy
- ☐ Other

If you selected other, please add the technology

Other project sector(s)
- ☐ Energy efficiency in buildings and infrastructures
- ☐ Smart electricity grid
- ☐ Clean transports
- ☐ Urban data platforms
- ☐ Other

If you selected other, please add the sector

Project maturity level
The Project Maturity Level (PML) model is aimed to support project developers and investors to assess which parts of their portfolio are investment-ready and which projects need further development. Please select the one that you think that is more adequate considering the maturity, the project description and background previously provided.

at most 1 choice(s)
- ☐ **PML 1** – Potential project identified (project or technology apparently suitable for intervention)

European Commission

How to submit your project?

https://ec.europa.eu/eusurvey/runner/IslandsMarketplace

(available on Marketplace page on our website)

- ☐ **PML 2** – Project potential quantified
- ☐ **PML 3** – Project investment estimated and suitable business models identified (via audit, study, benchmarking, etc.)
- ☐ **PML 4** – Technical project and business case developed
- ☐ **PML 5** – Investment-Ready (business case and tender model confirmed)
- ☐ **PML 6** – Investment offer or tendering requirements created (ready to sign or launch tender)

Impact

Expected impacts

Please indicate the expected impacts adding the most accurate data available.

	Expected impact
Renewable energy production (GWh/year or EUR/year)	
Energy savings (GWh/year or EUR/year)	
Installed Capacity (MW)	
Avoided emissions (tCO2eq/year)	
Temporary jobs created per year	
Permanent jobs created per year	
Other impacts (please describe)	

Simple payback time (years)

Other relevant information

Investment sought

Investment type

- ☐ Loan
- ☐ Equity
- ☐ Debt
- ☐ Grants
- ☐ Other

If you selected other, please add the investment type

Investment size (EUR)

Other relevant information

The Clean energy for EU islands secretariat will treat your information according to the Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC

Sharing

- ☐ Please select if you give permission for this information to be sent to investors within the Islands Marketplace
- ☐ Please select if you give permission to showcase your project on our website

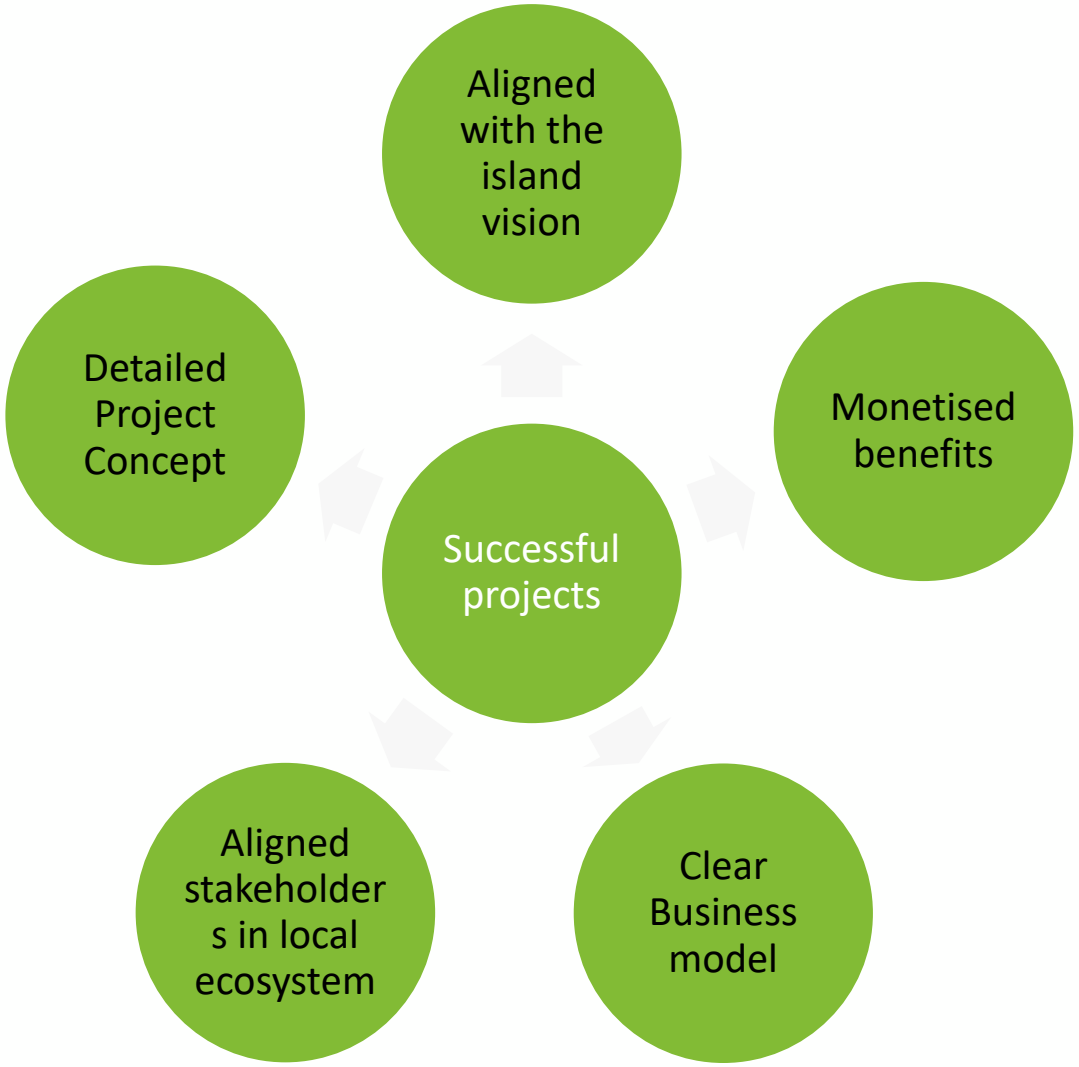
Tips for successful projects



Our current work in Malta

Technical assistance in Gozo

Gozo Regional Development Authority (project leader) intends to work on the development of a long-term **Decarbonisation Plan** for the island of Gozo.

To do so, the secretariat is delivering an analysis of the current energy system and its interdependencies.

Electricity consumption

Transport to and from the island

Transport on the island

Heating and cooling

Thank you!
