#CE4EUislands – Webinar: Activating the Islands Marketplace - Supporting islands communities to finance their projects

Date: 13 February 2025 | 15h00 – 16h30 CET | Online

One of the major barriers for islands to achieve complete energy independence through 100% renewable sources is the financing of transformative and impactful energy efficiency and renewable energy projects.

The CE4EUI Secretariat through the "Islands Marketplace" aims to bring together island communities, project developers, technology providers, investors and financiers to support the implementation of clean energy projects on islands.

This workshop aims to enhance the islands' knowledge on financing their energy transition projects and present the different tools developed by the CE4EUI Secretariat they can find support in:

- The **matchmaking** tool to connect the island transition teams with appropriate investors. By contacting the financing experts of the CE4EUI Secretariat, islanders will receive help to connect with appropriate investors and develop the narrative to convince the investors on the profitability of their project.
- **Guideline for financing transition energy projects in European islands.** The types of projects to support the energy transition of European islands are characterized by small to medium size, high difficulty to aggregate and high impact at local scale. A short guideline of (step by step) processes to finance projects on island has been developed. The steps for application and financing requirements of the potential main investors are clearly detailed.
- **Investor Network.** The CE4EUI Secretariat defined an investors' list adapted to energy transition projects.

Moreover, potential investors will present their views and requirements related to financing energy transition projects. The participants will be able to exchange directly with them.

#CE4EUislands – Webinar: Activating the Islands Marketplace - Supporting Islands Communities to Finance their Projects

13 February 2025 | 15:00 – 16:30 CET | Online

#CE4EUislands

Agenda:

Thursday 13^h February 2025 (CET)

15:00 – 15:05	Welcome and Introduction to the Marketplace Amandine Gal – Clean energy for EU islands secretariat (Econoler)
15:05 – 15:45	Presentation of potential investors Rahul Pratap-Sing – European Energy Efficiency Fund Tiago Vaz Serra – Plural Questions from the audience moderated by Jorge Rodrigues de Almeida – Clean energy for EU islands secretariat (RdA)
15:45 – 16:00	Presentation of the Marketplace tools Marko Markov, Leandro Vaz – Clean energy for EU islands secretariat
16:00 – 16:25	Discussion Ask your questions Moderated by Amandine Gal – Clean energy for EU islands secretariat (Econoler)
16:25 – 16:30	Conclusions and Final remarks Amandine Gal – Clean energy for EU islands secretariat (Econoler)
