

## #CE4EUislands – Workshop: Reimagining Land Transport: Green Choices for a Better Tomorrow

11 March 2025 | 9:30 – 17:00 | Saaremaa, Estonia

Georg Ots Spa Hotel

### Abstract

Within the framework of the technical assistance provided to the **30for2030 islands and islands groups**, special attention is placed on providing the local teams with tools and knowledge to support them in the development of RE and EE projects.

With this objective, the Clean energy for EU islands secretariat is organizing a series of 20 workshops over the course of three years to promote capacity building on relevant topics. The workshops are held **in person** on selected islands and involve representatives from the island transition teams of a varying number of interested islands. A knowledge-sharing strategy is envisioned after each workshop in order for all the 30for2030 islands and islands groups to benefit from all the discussions taking place.

This workshop, focused on the topic of **Sustainable Land Transport**, is part of this series.

On **12 March 2025, the 4th Kuressaare Offshore Wind Conference** will take place. The international and local offshore wind experts will dive deep into the Baltic offshore wind scene. A discussion on grid development and auction conditions will be held, covering the pros and cons of the CfD mechanism. All participants of the #CE4EUislands Workshop in Saaremaa are also invited to attend the 4th Kuressaare Offshore Wind Conference.

Please indicate below if you are interested to join and we are happy to share further information and the registration as soon as it is available.

Register here: [https://ec.europa.eu/eusurvey/runner/CE4EUislands\\_WS\\_Saaremaa](https://ec.europa.eu/eusurvey/runner/CE4EUislands_WS_Saaremaa)

*Registration closes at the **end of February 2025 or until spots have been filled.***

Find more information on the #CE4EUislands website.

**For international guests and speakers arriving on the 10<sup>th</sup> of March, dinner will be served at 19:30. Spot TBC. Please provide your arrival time.**

## Agenda

Tuesday 11 March 2025

09:30 – 10:00	<b>Welcome and participant intro</b> <i>EISEA</i>
Session 1	
10:00 – 10:30	<b>The conversion of public transportation</b> <i>Dr. Gunnar Klaus Prause - Tallinn University of Technology</i>
10:30 – 10:45	<b>Transportation study (Saaremaa and Ruhnu)</b> <i>Quentin De Clerck – Project Engineer at Th!nk E</i>
10:45 – 11:00	<b>Estonian islands: the challenge of decarbonizing the transport system</b> <i>Taavi Liivandi – Mobility Consultant at EISEA</i>
11:00 – 11:30	<b>Open Discussion</b> <i>All participants</i>
11:30 – 12:00	<b>Coffee break</b>
12:00 – 12:30	<b>The role of energy communities in supporting the mobility reform</b> <i>ReScoop</i> <i>Joosep Veerme – CEO of Energy Community in Estonia</i>
12:30 – 13:30	<b>Working Groups &amp; Open Discussion</b> <i>All participants</i> <i>EISEA</i>
13:30 – 14:30	<b>Lunch</b>
Session 2:	
14:30-15:00	<b>Case study - Green energy implications in maritime transport</b> <i>Peeter Raamat -Head of Research and Development at Baltic Workboats</i>
15:00-16:30	<b>Site Visit</b>
16:30-17:00	<b>Wrap Up Discussion</b> <i>All participants</i> <i>EISEA</i>
